# Welcome letter

June, 2024

Thank you for your interest in working with us at Chartered Trading Standards Institute. I am delighted that you are considering pursuing an application and hope this information pack will encourage you to apply.

We are an ambitious professional body with a proud history of protecting consumers stretching back 141 years. Our mission is simple, to protect consumers and to create a level playing field for businesses.

Ultimately, we are a membership organisation and as such we are driven by our members views and needs. They are driven, as we are as an Institute, by a strong sense of social purpose to protect the public, and that shapes all our work. We also extend our influence through other services we deliver that help shape the context in which we operate and these are important to the overall success of the CTSI business model. To make this all happen we need a robust but equally agile workforce sitting at the heart of the Institute as we look to our 150th anniversary in 2031.

We passionately believe in all we do and if you want to be part of the CTSI team of the future then we want to hear from you. We recognise the positive value of a diverse and inclusive workforce and are very keen to receive applications from applicants from all backgrounds.

We look forward to receiving an application from you if you consider you have the experience, skill set and ambition that this post requires.

With very best wishes.

# We look to provide innovative solutions across the regulatory arena

## About us

The Chartered Trading Standards Institute is a not-for-profit professional body and enterprise for trading standards professionals working in the private and public sectors. It is the national body responsible for representing, supporting, lobbying, and championing trading standards to a range of stakeholders including government, business, consumers, and the media and has done so since 1881. The Institute gained chartered status in 2015.

We look to provide innovative solutions across the regulatory arena; to administer and award professional qualifications; to accredit and certify training, to ensure the ongoing competence of members and to influence and lobby on behalf of the profession as a whole. We aim, through our actions and our members' actions, to empower consumers and reputable businesses to contribute to a vibrant economy.

We strive to eliminate rogue traders and unfair trading practices from the marketplace, to promote environmental sustainability, and to make positive contributions to the health and social wellbeing of citizens and communities.

# Vision, mission and values

## Our vision

That the United Kingdom prospers economically through fair and safe trade.

## Our mission

Support and reinforce the protection of consumers and achieve a level playing field for business.

## Our values

Underpinning the delivery of our vision and plan we will adhere to our core values, which are:

- we will always operate in an open transparent manner
- we will recognise diversity within our organisation and the wider community
- we will have both the sustainability of our profession and the Institute at the heart of everything we do
- we will be supportive and attuned to the needs of all key stakeholders
- we will act professionally and ensure the highest standards of governance at all times

The CTSI Vision and Strategy to 2031 sets out how we will aim to achieve our vision and modernise the Institute, under four key areas:

- leading the profession
- building our voice
- being stronger together
- delivering tangible change

The CTSI Vision 2022 is available to download from our [website](#).

We act ethically in compliance with our equality and diversity policies, with openness and accountability, in an honest and truthful manner that ensures fairness and value for money in a non-political, challenging and legally compliant manner.

In April 2021 CTSI signed the Business in the Community (BITC) Race at Work Charter, an initiative designed to improve outcomes for black, Asian and minority ethnic employees in the UK. By doing so we have set out our commitment to being an inclusive and responsible employer.

We fully embrace our environmental and sustainability policies as well as embedding quality management systems requirements within our organisation as part of our ongoing commitment to quality management. We achieved Investors in People in October 2010 and our UK European Consumer Centre has been awarded the Government Standard for Customer Service Excellence.
