
Assessor Training

Assessors of portfolios within the CTSI Qualification Framework can now book on to receive access to the Assessor training course materials. Please head to our events [booking page](#) for more information.

We now offer a [New and Upskilling Assessor course](#) suitable for Assessors who haven't practiced in the recent years and new Assessors. We also offer a [Qualification Framework experienced Assessor course](#) for those who are currently assessing.

Whilst we make these materials available, Assessors should be aware that the five steps of portfolio assessment, as they were in the Trading Standards Qualifications Framework (TSQF), remain the same for the Qualification Framework. Where the role of the Internal Verifier has been removed, these responsibilities have moved to the Verifier (formerly the External Verifier) and the paperwork slightly altered to reflect the shift.

Therefore, Assessors are encouraged to start assessing portfolios in the Qualification Framework without waiting for the training materials to become available. Assessor paperwork can be found in the [Portfolio and Training](#) tab of the Qualifications Resources area on the CTSI website
