

Examiner's report

Qualifications Framework

Stage 2: Feed Oral

Oral Examiner's Report September 2024

General Feedback

Two candidates sat the exam and marks ranged from 72 to 76%.

Candidates were shown a photograph with a verbal description to provide more context to the image. Questions were then posed as a scenario developed examining knowledge of on farm feed hygiene requirements, feed hazards and the supply of former foods.

Finally, a mock label was displayed to explore knowledge of feed labelling and formal sampling.

The candidates were able to identify and explain the key points applicable to the scenario giving reasoning for their answers. They both appeared to have prepared well in terms of applying their knowledge to the information provided, considering further action to secure compliance and communicating their responses to the examiner.
